

PRESSKIT

BIOGRAPHY

my sounds are born in my head, in my mind and raised in cgn.
it's not about standing in the centre of attention – it's about the
immersive electronic music, it's about letting people dance, live,
love and forget their problems. it's more like a desire to let you
forget your daily struggles and just enjoy the moment...
it's all about the good vibes.

founder, collective leader & resident at klangheimlich.
